About me

- Full-stack and mobile engineer specializing in JavaScript/TypeScript ecosystems. Currently Frontend Lead at Shop Circle BH while co-building Trainera.fit – a production fitness SaaS live on App Store, Google Play, and web. I ship real products end-to-end, from database to native mobile and AI integrations.

Experience

Shop Circle BH (Dec 2023 – Present):

Shop Circle BH | Sarajevo · Medior Fullstack Developer

- Frontend Lead with focus on JavaScript/TypeScript-based Shopify app development.
- Led frontend development for SC Loyalty Rewards, Keystone Loyalty Rewards, and SC Store Locator.
- Architected a reusable frontend setup with Shopify CLI used across all new Shop Circle applications.
- Built performant UIs using React, Remix, Tailwind, and Shopify Polaris design system.

Trainera.fit (Mar 2025 – Present):

Trainera.fit | Remote · Co-Founder & Full-Stack Project

- Co-founded Trainera.fit, a fitness coaching platform connecting personal trainers with clients – featuring training plans, nutrition tracking, progress analytics, messaging, and group coaching.
- Shipped the full product as lead engineer: Next.js web app, React Native mobile app (live on App Store & Google Play), and a native Apple Watch companion built in Swift/SwiftUI.
- Integrated Stripe, PayPal, and Apple IAP for subscription management; built an AI Coach and AI-powered food image analysis for personalized training and nutrition feedback.
- Implemented iOS Live Activities and Home Screen Widgets for real-time workout tracking; synced Apple HealthKit and Android Health Connect.
- Localized to 20+ languages with multi-currency support; CI/CD via GitHub Actions; deployed on Hetzner.

Ant Colony Internship (Apr 2023 – Jul 2023):

Ant Colony I Kolodvorska 12, Sarajevo 71000

- Worked as a Full Stack Developer using TypeScript, React, and Tailwind for frontend; Node.js for backend.
- Built RESTful APIs and collaborated in an agile team environment with experienced mentors.
- Gained exposure to software architecture, data security, and user-friendly interface design.

Zira Talent Academy (Mar 2022 – Jun 2022):

Zira I UNITIC Business Tower, Fra Anđela Zvizdovića 1

- Developed a movie browsing web platform with frontend and backend components using APIs.
- Focused on building a scalable and secure backend for seamless frontend-backend communication.
- Gained hands-on experience in full-stack web application development.

Freelance Graphic Designer (Jul 2021 – Nov 2023):

Majestic Games I East 45, Abu Dhabi Island, Abudhabi, AE

- Freelance graphic designer for Majestic Games — created characters, animations, UI assets, and social media visuals for mobile games.
- Contributed to both visual identity and player experience through creative design and modern tools.

Basketball referee (Sep 2019 – Present):

Sarajevo Canton Basketball Association

- Licensed referee for the Basketball Federation of Bosnia and Herzegovina (Sarajevo Canton, 2019 – Present).
- Developed strong decision-making, communication, and composure through high-level competition officiating.

Assistant Production Manager for Dino Merlin (2019 – 2024):

Magaza | Ćurčiluk veliki 20, Sarajevo 71000

- Managed stage effects, lighting, equipment logistics, and stage setup for large-scale concert productions.
- Coordinated instrument setup, technical execution, and sound quality as part of the production crew.
